***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: applicant's argument that applied prior art doesn't teach performing hydrogen anneal procedure on the nitrided gate insulator layer or nitrided silicon dioxide insulator layer is found persuasive. Shih teaches annealing the silicon nitride that forms on a polysilicon with a gas mixture of N<sub>2</sub>/H<sub>2</sub> in order to form a high quality interface between silicon nitride and polysilicon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
